PROFESSIONAL EXPERIENCE

Ethnus

Web Developer

Online

08/2023 – 11/2023

Project : Mern Development for Ethnus

- **Developed** a fully responsive dynamic website, collaborating closely with a team to ensure seamless user experience across all devices.
- **Implemented** ReactJS components to enhance website functionality, contributing to a 25% increase in user engagement.
- **Optimized** backend processes using NodeJS and MongoDB, reducing server response time by 30%.
- **Deployed** the project on a live server, enabling global access and ensuring 99% uptime for users.
- **Collaborated** with mentors and team members to troubleshoot and resolve technical issues, improving project delivery speed by 20%.
- **Acquired** in-depth knowledge of MERN stack, successfully applying new skills to meet project deadlines and quality standards

Projects

Food Website Design Project

Team Leader

July 2022 – Sep 2022

- Led a team of 4 in developing a customer-facing food ordering website, successfully meeting project milestones and ensuring timely deployment
- Coordinated tasks and provided guidance on front-end development, enhancing team efficiency.
- Coordinated weekly brainstorming sessions that encouraged innovative problem solving, leading to the generation of over 50 actionable ideas; these ideas contributed to an increase in efficiency across team projects.
